Turbine power instead of a pump
quickly reconfigured

LittleStarlet

**Your upgrade
for even more swimming fun.**

AI MODIFIED

Innovation meets design

LittleStarlet – the elegant solution for any swimming pool. Modern technology with maximum ease of use.

Perfect for anyone who wants to take their pool to the next level without any hassle.

BINDER GmbH & Co. KG | Eike-Kerstein-Straße 4 | 31789 Hameln | Germany | +49 5151 96266-0 | info@binder24.com | binder24.com

Pump off. Turbine on.

A quick upgrade to LittleStarlet thanks to the WallMount mounting plate

Are you unhappy with your old counter-current system?

With the WallMount mounting plate, you can easily replace your old pump-based counter-current system with a LittleStarlet.

The built-in housing of your existing system, which is firmly fixed to the pool wall, remains completely intact; there is no need for any labour-intensive dismantling or structural alterations to the pool. The WallMount mounting plate is screwed directly onto the existing housing and forms the basis for the secure attachment of the new LittleStarlet counter-current system.

In future, the flow will be handled by the new, high-performance turbine.

WallMount mounting plate

- Easy replacement thanks to installation directly onto the existing system
- Without any alterations to the pool
- Corrosion-free PVC
- Suitable for various pump systems. Please feel free to contact us.

LittleStarlet

The stylish turbine swimming system for new and existing pools

Swimming fun at the very highest level – even in the smallest of spaces!

With the LittleStarlet turbine swimming system, you can transform any pool into a real swimming paradise. Thanks to its extremely compact dimensions (Ø 25 cm x approx. 40 cm), LittleStarlet is the perfect solution for anyone who does not want to compromise on a powerful counter-flow system. Even in small pools or confined spaces, the system can be retrofitted easily and flexibly – even on a step!

Innovation meets design

LittleStarlet is not just atechnical highlight, it is also visually striking: the completely redesigned housing incorporates a modern LED ring directly at the outlet. This allows you to add stylish touches to your pool whilst enjoying a particularly pleasant swimming experience.

Mounting bracket UniMount

For existing pools or newly built ones, the mounting bracket UniMount allows an installation on the edge of the pool in just a few steps.

Technical highlights

- Flow rate up to 180 m³/h
- Compact design (Ø 25 cm x approx. 40 cm)
- Quiet operation
- Easy to control via the BINDER24 app
- LED ring for atmospheric lighting effects

Benefits at a glance

- Easy installation
- Intuitive operation
- Individually adjustable water flow for exercise or relaxation
- High-quality, durable workmanship
- An elegant, timeless look
- Comfortable swimming fun
- Effective training

LittleStarlet – for comfortable **swimming fun** and effective **trainings**
